Todos os productos importados pelo Brasil podem ser cultivados em suas terras, extrahidos do seu sub-solo ou industrializados em suas usinas. A solução do problema dos capitães e do braço arregurarão ao Brasil a sua independência económica.

All products imported by Brazil can be grown on its soil or extracted therefrom, or manufactured in its factories. The solution of its two problems of capital and labour would bring about its economic independence.

Tous les produits importés au Brésil peuvent être obtenus de son sol, extraits de son sous-sol ou manufacturés dans ses usines. La question de l'emploi des capitaux et de l'utilisation de la main d'œuvre, une fois résolue, le Brésil, aura atteint son indépendance économique.
